This project was funded in the amount of \$65,700 via Denali Commission Financial Assistance Award Project No. 0071-DC-2002-I24, dated April 2002.

These additional funds increase the total award to \$106,044, and expand the scope of work to include the design of a hygiene center, associated water and sewer service connections, and temporary housing space within the clinic.

MEMORANDUM

DATE: March 2005

FROM: Heritage and Environmental Consultant

SUBJECT: Stevens Village – Environmental Review
Amendment No. 1, Project No. AN 02-G16

TO: FOR THE RECORD

Based upon proposed Federal funding for this project, an environmental review in accordance with the National Environmental Policy Act (NEPA) and the National Historic Preservation Act (NHPA) is required. The Alaska Native Tribal Health Consortium (ANTHC) has considered all potential environmental concerns (specific and cumulative effects) associated with the project in consultation with applicable federal, state, and local authorities. An environmental review was completed in July 2002 with respect to the proposed sanitation facilities construction at Stevens Village, Alaska under Project No. AN 02-G16. This Amendment will not change the scope outlined in the original document, and therefore no additional environmental review is necessary at this time.

If the scope of work is changed in the future, then the ANTHC will revisit this environmental review to determine if potential environmental concerns have been addressed.
